About Me

I'm a Front-end Developer who loves making websites look great and work seamlessly. I'm really good with HTML, CSS, and JavaScript, and I know my way around Git and GitHub. I've also got some experience with WordPress. I'm on the lookout for a job where I can bring my skills to a cool team, tackle interesting challenges, and help make awesome websites that people love to use.

Internship

Ahmed web solutions | Front-end developer
nov 2023 – jan 2024

- Contributed as a Front-End Development Intern at Ahmed Web Solutions, making a tangible impact during a dynamic three-month tenure.

- Designed captivating websites that merged aesthetics with functionality, showcasing creativity and a keen eye for user experience.

- Successfully resolved various website issues, demonstrating problem-solving abilities and a proactive approach to ensure seamless user interactions.

- Conducted meticulous website evaluations, identifying areas for enhancement and executing precise corrections, fostering a commitment to excellence.

- Engaged collaboratively within the team, harnessing technical skills in HTML, CSS, and JavaScript to drive successful project outcomes.

- Achieved proficiency in front-end technologies while adapting to a fast-paced environment, aligning with Ahmed Web Solutions' dedication to innovation and quality
